Unit 2 A&L Industrial Park, Eliaser Tuhadeleni Street, New Industrial Area

PO Box 3203, Swakopmund, Namibia

WE BUILD WITH **EXPERIENCE**

With expertise and experience in the design, supply, installation and project management of prefabricated structures, QuickBuild offers a comprehensive range of products and services.

With over 12 years experience, designing and executing pre-fabricated projects for the mining industry we understand the importance of delivering projects on time, without compromising on quality or the well-being of our teams.

Whether you are looking for a mobile, fixed, temporary or permanent space solution, QuickBuild can accommodate you.

ABOUT OUR

MATERIALS

STANDARD EPS PANELS

Our panels are sourced locally and are manufactured to the highest standards. High quality fire-retardant expanded polystyrene (EPS) is sandwiched between sheets of coated steel (pre-painted AZ100 alu zinc). In addition to insulated wall panels, roof panels with an IBR profile are used during construction. Panels are available in thicknesses ranging from 40mm to 200mm and the height and width are tailored to suit each clients design specifications.

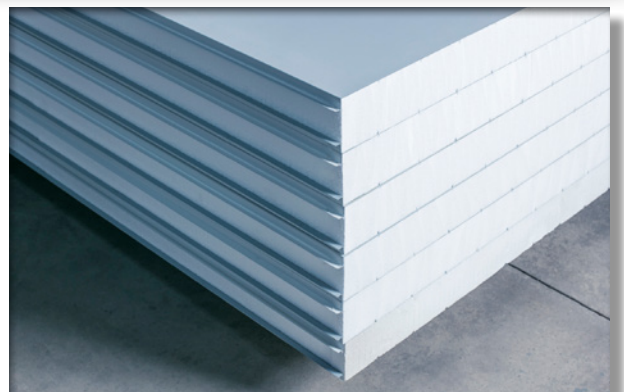

Pre-painted AZ100 is intended for panel applications from Mediterranean coastal conditions to hygiene-safe environments within the distribution and production market sectors.

For more specialised environments and applications alternative grades of pre-painted Aluzinc are available.

PRE-PAINTED AZ100

- PRE-PAINTED STANDARD NOMINAL 20 MICRON
- ALU-ZINC COATING NOMINAL 27 MICRON
- STEEL SUBSTRATE BASE TO CLIENT SPECIFICATION
- ALU-ZINC COATING NOMINAL 27 MICRON
- 5 MICRON EPOXY BACKING PRIMER FOR LAMINATING

MOBILE SOLUTIONS

QuickBuild offers a variety of mobile space solutions. Manufactured to our standard designs or to customer specification, these units can be utilised for a large number of applications:

- Mobile Office / Site Office
- Accommodation Units
- Ablution Facilities
- Mobile Medical Clinics
- Cooler / Freezer Rooms
- Kitchen & Catering
- Security Guard House
- Event Kiosks
- Fire Proof-Control Rooms
- Laboratories
- Mobile Road Block Units
- Border Posts
- Container Conversions

Mobile units are manufactured using a number of different methods, depending on the client's specifications, budget and requirements.

All options can be provided with windows, doors, air conditioners and internal plumbing and electrics. We believe in using superior products to complete our projects - everything from top of the range paints to internationally recognised polyurethane sealants.

Delivery of mobile units can be provided all over Namibia or can be collected directly from our workshop.

PERMANENT SOLUTIONS

For a more permanent solution QuickBuild provides concrete-based prefabricated buildings. This provides the opportunity

for larger building sizes and a faster more versatile alternative to more traditional & conventional building methods.

Applications include:

- Full turnkey construction camps including design, civils, plumbing, electrical and HVAC
- Mining Infrastructure
- Mass Housing
- Schools / Classrooms
- Factory Structures
- Office Blocks
- Staff Accommodation
- Laundries
- Kitchen / Diners
- Lodge Accommodation & Service Buildings

Additional Services

- Fencing
- Steelwork (small to medium)
- Civils

WE TURN YOUR VISION INTO REALITY

... AND WE DO IT WITH PRIDE
